=====Q: Android: Facebook login error (Failed to find oauth 2.0 client registration secret) I'm trying to login to my Facebook with Android. I keep getting this error: { "error": { "message": "Unable to resolve host name xxxxx: Name does not exist", "type": "OAuthException", "code": 200 } } I searched a lot but it's working perfectly on the web. My code: protected void onCreate(Bundle savedInstanceState) { FacebookSdk.sdkInitialize(getApplicationContext())

```
); AppEventsLogger.activateApp(this);
LoginManager.getInstance().logout(); request
NewPublishPermissions(this.getApplicationC
ontext());
setContentView(R.layout.activity_main);
mFacebookButton = (Button)
findViewById(R.id.fb_button);
mFacebookButton.setOnClickListener(this);
} protected void onActivityResult(int
requestCode, int resultCode, Intent data) {
super.onActivityResult(requestCode,
resultCode, data); m
```

What's New In DICS - Documented Information Control System?

With the DICS Document Control System, you can create, maintain, report and distribute your documents in a controlled manner. DICS offers an unlimited amount of tools and is a powerful solution to your

documentation issues. The documentation management software is best used to prepare and maintain any type of documentation, for example software documentation, documentation for investors, life cycles, maintenance plans, quality management plans, supplier agreements and much more. DICS comes with an intuitive and user friendly interface and is fully compatible with Microsoft Office 97/2000/XP/2003/2007 and can also be used as an add-in to Office. When starting the program, the user is guided step by step through the process of creating a new account. Then, the user is asked to create one or more documents. From there, the user may keep editing existing documents or may create new ones. When a new document is finished, the user can add as many comments

and notes as desired. Instructions: To create a new account, register at the website: -----
jasondenyson Outlook for Android ~~~ gcr
Outlook for Mac is a great productivity suite that probably uses more RAM though. ~~~
w1ntermute Outlook has always been lighter on RAM than other apps, though. -----
